Continuation of 3. NOTE: Applicant amended independent claims 1 and 10 to recite a porous pad that distributes negative pressure to a wound rather than simply a suction device and a pad used together. This amendment changes the scope so as to cause further search and consideration after a final action has been mailed.

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments are either a reiteration of previous arguments found to be not persuasive or are directed to a claim amendment that has not been entered. Applicant's remarks that Brown and Pdoell together do not meet the claim limitations are not persuasive because all fo the claims are rejected under the combination of Brown and Podell with a third reference, either McRae or Coffee. Since applicant has not addressed those combinations in the respective claim rejection arguments, the arguments are insufficient to overcome the outstanding claim rejections of claims 1-19 under 35 U.S.C. 103.
